2. **Make your art:** Follow the instructions the best that you can – get creative and think outside the box to make yours unique. Decorate and personalize your creative Pop-up card using whatever art supplies you have.
3. **Share your work:** This is required! To do this, fill out a simple Reflect & Share Microsoft Form for this week's project by following this link here:

## Art Project Instructions:

1. First, fold your paper in half to make the card shape.
2. Next, on the folded side, use scissors to make a short cut into the center of the paper. This is your opening!

The smaller your cut, the smaller your opening. So, make it only as big as you want it for your idea. Use a different kind of line, like a zig-zag, for teeth shapes if you want.

3. Then, with the paper still folded closed, fold the corners of the opening that you just made up and down to make a nice, tight crease line.

4. Next, open your card and pop forward the shape you just made so it opens up into the card. You may want to fold it again to make the creases

extra tight. This will help them to pop out more easily.

5. Finally, draw a creature, a message, add another pop-up, add a back page, cut your card into a heart, or add any other creative details that you imagine will make your pop-up art look great!

***I can't wait to see what you make! Don't forget to share your work with Mrs. Ramey by clicking the link above to take you to the Microsoft Form when you are done. Have fun!***
